Our training is aimed at unemployed as well currently employed members of the community. The unemployed will be uplifted and equipped with the necessary information to assist the needy in their community, and possibly open up opportunities for themselves.

The employed will benefit by being able to provide an additional service to their employer and enhancing themselves with regards to better working opportunities and to possibly benefit financially by their additional knowledge.

We are aware that services easy become a commodity product if we are selling on price. However, when services become a focus, it is a competitive advantage that is not easily copied. Many tasks done by our employees have nothing to do with Client Satisfaction; they are done to satisfy internal demands.

Creating service excellence should be a priority for all our Flexi Employees.

NB: We are not a Labour broker company. We are a Service provider.
